

Purchasing a Membership

- 🌐 There has never been more reasons to become a Member at Kelowna Springs
- 🌐 Our new **Double Membership** offers flexibility and multiple annual options

Step 1 Purchase a transferable playing license from an existing Member. In 1990, the Member Society at Kelowna Springs offered 225 playing licenses for sale - roughly 25% of our current Members are original Founding Members. When a Member chooses to stop being a Member, they offer their playing license to a new, incoming Member. Kelowna Springs has never offered 'Season Passes' - to be a Member, you must acquire a transferable playing license. The cost of these playing licenses are determined by the number available for sale at any given time. Inquire at our Pro Shop, or click on Membership at www.KelownaSprings.com for information on current values. One transferable playing license equals one Double Membership.

Step 2 Recognize that every **Double Membership** can allow one **OR** two people to play as a Member each season - the choice is entirely up to the owner of the transferable playing license. The second Member can be a spouse, a friend, a family member, etc. Furthermore, the second Member can change from year to year with no transfer fees.

Step 3 Each Member playing on a **Double Membership** has THREE annual options to choose between.

- 🌐 **Unlimited Play Member** - ideal for Members planning to play 45 or more games in a year
- 🌐 **Occasional Play Member** - great choice for Members anticipating to golf as little as 20-25 rounds
- 🌐 **Social Play Member** - for Members who expect to play as little as 5 games in a season

This flexibility ensures there is an annual Membership option that fits any golfing habit. You are never required to pay full annual dues if your playing frequency reduces. Additionally, the Social Play option is a great way to introduce Membership to new golfers or those who play seldom (your neighbour, your spouse?).

A separate information sheet outlines rates for Annual Dues options.
